LJUBLJANA POST OFFICE TO HOUSE PHONE EXCHANGE -- Ljublj, na Slovenski Porocevalec,  
22 Jul 50

The new post office building in Ljubljana is located on Masarykova Cesta. Besides the postal facilities, it will also house the telephone exchange. After the new telephone exchanges in Skoplje, Subotica, and Belgrade (now being installed), the Ljubljana automatic exchange will be the fourth in Yugoslavia to be built since the liberation. The installation of the exchange will be completed in the spring of 1951.

The telegraph system, which is also being installed in the new post office, will be in operation this year.

The new public telephone exchange will contain 4,000 numbers. Including the numbers of the old exchange, which will continue to function, Ljubljana will have 9,000 telephone numbers.
